**Re: Conditions of PRE Stud Book Closure.**

To: ACPRE

Upon closure of the Pura Raza Española Horse and Mare Stud-Book in your country on 31 December 2004, I enclose conditions of closure.

Signature: General Frutos Heredero Ibáñez

Seal: SERVICIOS DE CRIA CABALLAR Y REMONTA

## CONDITIONS FOR THE CLOSURE OF THE PURA RAZA ESPAÑOLA HORSE STUD-BOOK IN AUSTRALIA AND NEW ZEALAND

On 31 December, the Australian and New Zealand P.R.E. Stud-Book has been approved under the following conditions:

1. Horses CONCEIVED between 1 January 2001 and 31 December 2004 which have not been valorated for whatever reason, and which are progenies of identified stallions and mares, may be inscribed under the following circumstances:
  - When the progenitors have not fulfilled their second valuation and have died.
  - When neither of the progenitors is IAP (Inscription by opening of the country) and when they are registered in the Main Registry.
  - If a progenitor is IAP, but has a first generation progeny inscribed in the Main Registry. That is, they have PRE inscribed progenies approved for breeding

**NOTE:** Horses will only be considered as having been *CONCEIVED* when their blue cover certificate copies are sent to this organisation before 1 March 2005.

2. Stallions and mares born after the closure date may only be inscribed in the Birth Register when they comply with the general conditions set in Article 7 of the Spanish Legislation Royal Decree 1133/2002 of 31 October.  
Due to the special conditions existing in Australia and New Zealand, with no nominated authorised personnel, the horses applying to the corresponding Association will be able to be identified within the established timeframe of six months, even though they might not be at the foot of the mother.
3. Birth inscriptions for adult horses, that is, horses born before 1 November 2003, may only be carried out under the conditions set for "outside the specified timeframe" which will be provided for by Spanish Legislation.  
In the same manner, it will be possible to identify and valorate IAP horses under the conditions of "outside the specified timeframe" Inscriptions.
4. Under no circumstance will foals of IAP horses, *CONCEIVED* after the closing date of 31 December 2004, be eligible to be inscribed in the Birth Register.

Madrid, 1 January 2005

I Magdalena Rowan, NAATI Professional Accredited Translator do hereby certify that this is a true and faithful translation into English of the documents in the Spanish language hereto annexed and produced to me.
